Only a Dismal Failure

In the Efforts of the Cronin Suspects,
TO PROVE THEIR INNOCENCE.

A Number of Witnesses Testify in Their Behalf. But No Two Tell Exactly the Same Story—The White Horse Again Receives a Great Deal of Attention During the Day.

CHICAGO, Nov. 20.—Judge McConnell's branch of the criminal court was called to order at 10 o'clock Tuesday morning, and the Cronin trial resumed. Redmond McDonald, a policeman of East Chicago avenue station, was the first witness called, and was examined by Mr. Forrest.

The witness testified that he went to Casey's funeral on the afternoon of May 4 in a buggy with Officer Richard McCormick. He went on duty as a patrolman at 7 o'clock that evening, his beat being on the west side of Clark street, and east side of Wells street from Oak street to Chicago avenue. He remained on duty until 4 o'clock in the morning. He saw Dan Coughlin that night, as the latter was going into the station about 8:45 or 9 o'clock. Witness was on Wells street and was just going into the patrol house. Witness was a member of Camp 20.

Cross-examined by Mr. Hynes, witness said his number was 72 (indicating that he was an "old member"). Witness could not remember what he did, or where he went the day of the funeral, nor whom he saw at the Casey funeral. He did not go inside of the church, but stayed in the buggy. Witness returned from the cemetery about 5 o'clock and went to Garrity's saloon. (Witness yesterday was positive it was 6 o'clock). He did not see Martin Burke at the funeral nor did he see Dan Coughlin at Garrity's saloon. Witness denied that he went to Dinan's livery stable Saturday night to ask if all the rigs were in. It was on his beat, but he didn't go, because he knew nothing about it. Coughlin was standing on the station steps when witness saw him, and he said "Good evening" to him, and Coughlin said the same.

Witness knew Coughlin was suspected of complicity in the case, because he read it in the papers.

Witness upon being pressed said that he did not know that not a word had been printed on the subject until three days after the corpse had been found in the Lakeview catch basin. He had told no one but Stott, because he (the witness) was a member of Camp 20 and did not want to get his name mixed with the case. Witness admitted that he had been in Dolan's saloon Monday night.

These questions indicate that a small army of detectives are keeping track of the movements of witnesses for the defense.

William Mulcahy, an employee of O'Sullivan, the ice man, testified that a man resembling Coughlin called at the ice man's residence in April and asked him if he knew Kunze. On his replying in the affirmative he told him to notify him (Coughlin) by telephone to the Chicago avenue station when he turned up. Coughlin was confronted with the witness, but the latter would not swear that it was the same man. Mulcahy went on to say that in April he was troubled with a sore leg and that O'Sullivan told him to go down and see Dr. Cronin, as he had a contract with him. He also swore that on May 4 he was out with Sullivan peddling ice until late in the evening. They went home and had supper. O'Sullivan went to bed at 10 o'clock, the witness following soon after. About 10 o'clock he was awakened by hearing some of the workmen returning. O'Sullivan went down and let them in. He and O'Sullivan remained in the same room for the rest of the night. Witness had gotten one hundred cards from O'Sullivan toward the last of April and distributed them to stores and saloons.

On cross-examination by Judge Longenecker the witness exhibited a poor memory. He said he had known O'Sullivan's brother in Iowa, and had brought a letter of introduction from him to the Lakeview man. Although he had occupied the same room with O'Sullivan he could not tell the color of his underwear, what time he went to bed or what time he got up. He admitted that O'Sullivan might have left the room without his knowing it. The witness was pried with questions concerning the clothes he wore, and how often he was shaved in May, which led to the suspicion that the state's attorney believed that the witness was the man that drove the white horse. Forrest objected to the question as insinuating, but the court ruled otherwise.

Thomas Whalen, a cousin of O'Sullivan, with whom the ice man and his employees boarded, was the next witness. He remembered the evening of May 4. Witness had supper with O'Sullivan, and the rest of the family, and went to bed early. O'Sullivan had gone to bed previously. Whalen slept very soundly, and if O'Sullivan went out he did not hear him. The witness also remembered Sunday evening, May 5. When he came home that night he found the two Hylands at his house. They and O'Sullivan went out about 10 o'clock, and O'Sullivan returned alone, the Hylands having gone home.

This was to fortify the evidence of the Hylands as to their drinking with O'Sullivan at Nielsen's saloon. At the conclusion of Whalen's examination court adjourned to 2 o'clock.

William M. Glenn, a reporter, was the first witness at the afternoon session. In an interview May 11 Mrs. Couklin told the witness that Capt. Schaeck had brought a horse to her on the day before, and that it in no way resembled the one that took Dr. Cronin

away; that it was a faded old nag, while the one which drove the doctor away was a spirited one.

Robert Boynton, who boarded with Tom Whelan May 4, testified that he and two other men were out on the night of May 4, and when they returned about 10 o'clock O'Sullivan came down stairs in his night clothes and admitted him.

James Knight, an employee of O'Sullivan, gave testimony corroborative of Witness Boynton relative to the occurrences of the night of May 4. On the cross-examination he severely impaired the attempts of the defense to show by former witnesses that early in the evening on May 5, when the Hyland consus called O'Sullivan was not at home. He said O'Sullivan was at home at 3 o'clock that afternoon and remained there until he left with the Hylands at 10 o'clock.

James Minahan, another employee of O'Sullivan, reported the story about what took place at the O'Sullivan household on May 4. He also rendered null, to the great extent, the testimony of the Hylands, who declared that they did not visit O'Sullivan's house between May 3 and last Sunday, by swearing that he saw them there on May 13. Continuing Minahan said that he got O'Sullivan's cards from the printer last May and distributed a number of them daily.

Jacob Schuur, trunk manufacturer, testified to having examined the bloody trunk, lock, and paint-stained key in possession of the state's attorney; that he manufactured the trunk and many others like it, and that the key and lock had many duplicates.

Patrick Brennan, another employee of O'Sullivan, told of being in the ice man's house on the night of May 4; of all having supper between 7:30 and 8 o'clock, and of O'Sullivan and Mulcahy going to bed together at 9 o'clock. Court then adjourned for the day.

NEW SENATORS.

John B. Allen Selected in Oregon, and Gilbert Pierce in North Dakota.

BISMARCK, N. Dak., Nov. 20.—Gilbert Pierce was yesterday made the unanimous choice of the Republicans for United States senator. Two ballots were taken for the second senator without result, the last vote standing as follows: M. S. Johnson, 27; McCumber, 14; M. G. Ordway, 10; Walter Muir, 8; George H. Walsh, 11; C. A. M. Spencer, 1; W. C. Plummer, 7; George H. Winship, 2.

The caucus adjourned, and balloting will probably not be resumed for several days.

Oregon's New Senator.

PORTLAND, Ore., Nov. 20.—John B. Allen received a majority in both houses of the Washington legislature yesterday for United States senator, and will no doubt be elected in the joint session.

A Mammoth Coal Vein.

MARION PLANE, Pa., Nov. 20.—Lawrence & Brown, of Mahony Plane colliery, have made a tremendous hit in striking a new mammoth vein of anthracite coal. The vein is said to be 200 feet thick, containing millions of tons. It will go on record as the greatest accidental "find" of pure coal ever known. The vein was struck while making a drift 440 yards under the surface. It is now believed the mammoth vein basin has been found. It is impossible at this time to accurately compute the millions of tons of anthracite fuel contained in it, but the operators regard it as inexhaustible.

Now It Is Our Patent Medicine.

ROCHESTER, N. Y., Nov. 20.—H. H. Warner & Company are in receipt of a cablegram from Mr. Warner in London announcing that the sale of his great "Safe Cure" business is consummated. The English syndicate to whom it was sold announce the allotment of the stock will be made on Dec. 2. Five million dollars is understood to be the sum paid for the property. It is reported that Mr. Warner will be president of the new company.

"Bottled Victuals and Johnny Cake."

PALMER, N. Y., Nov. 20.—Walter Haynes, of Brimfield, celebrated his one hundredth birthday yesterday. He is in excellent health and does not look to be over 75. As a carpenter, Mr. Haynes helped to build the first block erected in Syracuse, N. Y., and alone excavated a quarter section of twenty-six rods of the Erie canal. He never used liquor or tobacco, and attributes his longevity to bottled victuals and "Johnny cake."

A Small Freight Wreck.

WORCESTER, Mass., Nov. 20.—A railroad wreck happened on the Worcester division of the New York, Providence and Boston railroad, at North Bridge, about 9 o'clock last evening. The accident was caused by the rear end of a freight train crashing into the front part of the train, the coupling pin having been withdrawn to take on two box cars. The tracks were blocked several hours. No one was injured.

Murder Mystery.

NORFOLK, Mass., Nov. 20.—H. O. Nichols, an old workman living alone near this place, was found dead in his house yesterday. The body showed marks of violence, and the house was in disorder. Nichols had lately been annoyed by a gang of boys who fired pistols and threw stones around his house, and it is suspected that he quarreled with them and received fatal injuries at their hands.

Attempted Wholesale Assassination. Ironwood, Mich., Nov. 20.—Three dynamite cartridges were exploded under the Alcazar theatre at Hurley, Wis., late last night. Fortunately the explosive was so placed that the building was but slightly damaged, and no one in the audience of 400 was killed. The attempted wholesale assassination caused great excitement. There is no clue to the perpetrators.

Overflowing Rivers.

Thousands of Dollars Worth of Property Destroyed.

HEAVY FLOODS IN THE EAST.

Many Railroad Bridges Washed Away, One of Them Containing a Heavy Loaded Freight Train—The Rain Storm Attended by Heavy Gales—Communication Cut Off From Many Places, Making It Impossible to Learn the Full Extent of the Damage.

WILLIAMSPORT, Pa., Nov. 20.—All the small streams in this vicinity have overflowed their banks owing to the heavy rain which has prevailed during the past twenty-four hours. The Susquehanna river here has reached the fifteen-foot mark and is still rising, and from reports from above it is liable to rise several more feet during the next few hours.

Grafter's run has overflowed its banks and many of the streets were all flooded. A call has been received here for loaded cars to weight down some of the bridges on the Northern Central railroad.

Lycoming creek is within two feet of the June flood at Cogan station.

Bridges 1, 2, 8, 18 and 19 on the Northern Central railway have been carried away, and the running of all trains have been abandoned. The Philadelphia and Reading Railway company are running trains to Montgomery. The bridges at West Milton and Muncy, on the Reading railway, are disabled, as well as the Philadelphia and Erie bridge at Montgomery.

It is feared that the Market street toll bridge here will be washed away. The water is still rising here and will probably reach eighteen feet.

The logs in the boom have been made secure.

A dispatch from Watsontown says: Two spans of temporary trestling of the Montgomery bridge on the Philadelphia and Erie road were moved several feet, and a number of braces swept from under them. The Niagara express was stopped here and all passengers taken back to Sunbury. No trains can pass over the bridge for twenty-four hours, and if the water rises much higher the time may be still further extended.

Affairs at Reading.

READING, Pa., Nov. 20.—The rain of the past thirty-six hours has again caused a rise in the Schuylkill, and the river has overflowed its banks. The Maiden creek, Tulpehocken, Monocacy and other tributaries are greatly swollen. The storm has been very severe, and many of the streets of the city are under water, and cellars in different sections have been flooded.

Hundreds of acres of farming lands have been inundated by the Schuylkill river overflowing its banks.

Reading railroad officials here have been informed that a number of their collieries have been flooded. The water in the Schuylkill is now over seven feet above high water mark, and work on the bridges at Phoenixville tunnel and at the falls of Schuylkill has to be temporarily suspended.

Raining for Forty-Eight Hours.

BELLEFOURTE, Pa., Nov. 20.—For the past forty-eight hours rain has fallen here incessantly and the waters are very high. Reports from the surrounding country give the flood almost as great as last June. At Millhall the water is if anything higher than it was at that time. There is no railroad communication over the Philadelphia and Erie railway, all bridges being washed away. No train has arrived in Bellefonte over the Lewisburg road for twelve hours, and reports state that the road is being badly washed up.

Look Haven and Clearfield are reported to be badly flooded. At this writing the rain has ceased but the clouds are yet very threatening.

Bridge and Train Fall Into a River.

SHADYFORD, Pa., Nov. 20.—An Erie special from Sunbury, Pa., says the Susquehanna river has been swollen to enormous proportions by the late rains, and great damage is reported from various towns along its course. At Milton the Pennsylvania railroad bridge was in danger, and in order to hold it in place a heavy coal train was run upon it. The train had been standing on the bridge when the structure gave way and the bridge and train fell with a crash into the river.

Great losses to lumbermen are reported.

Eight Inches an Hour.

HARRISBURG, Pa., Nov. 20.—A dispatch from Newport, Perry county, states that the water in the Juniata is rising at the rate of eight inches an hour, and there are fears of another flood at this point. The water in the Susquehanna has not materially risen, but rain has fallen steadily since Sunday night, and there are grave apprehensions of a freshet. The people in the lower section of the city are making preparations to leave at a moment's notice.

Floods in New York and New Jersey.

NEW YORK, Nov. 20.—Heavy rains have caused many streams in New York and New Jersey to overflow their banks, and a number of towns have sustained considerable damage from the floods. Traffic on the Erie railway was stopped yesterday by washouts near Elmira. The lower portions of that city are inundated and the Northern Central railway is also blocked by washouts and landslides. One freight train was wrecked by a landslide and Engineer Delaney had a leg broken. Several

bridges have been carried away around Elmira and Harrisville. Lough valley railway trains are delayed.

Canisteo is partly inundated by a rise of the Canisteo river. Railroad traffic there is suspended. The storm is very severe along the Jersey coast. The pier at Long Branch is in danger, and the bluffs and bulkheads in that part of the coast have been badly damaged.

Railroads Completely Paralyzed.

BUFFALO, Nov. 20.—The heavy rains this week have caused such a rise in the streams east of Hornellsville that the tracks of the Erie and Lackawanna roads have suffered severely. The Erie track is gone in several places between Hornellsville and Painted Post, and no trains are running through. No serious accident has occurred. The Lackawanna road is reported to be in equally as bad shape.

Still Raining in New Jersey.

PERTAMBOY, N. J., Nov. 20.—Monday night one of the worst rains of the season set in here and still continues without the slightest signs of abatement. A heavy northeast gale prevails and rain is falling in torrents. The tide is unusually high and vessels experienced much trouble in holding their anchorage. Business is wholly suspended. Much damage has been done.

Streets Under Water.

ELKTON, Md., Nov. 20.—A heavy rain has fallen throughout this section since Sunday night. All streams are high, and it is thought that many country bridges have been swept away. The streets of this place are badly washed, and many are under water. Cellars are flooded and great damage has been done to the town.

The Squadron Returns.

NEW YORK, Nov. 20.—The squadron of evolution, which last night returned and anchored inside of Sandy Hook bar, is still there waiting for the weather to clear up. It blew heavily at Sandy Hook all night, and at midnight the wind had a velocity of fifty-six miles an hour. At noon yesterday it was blowing at the rate of thirty-three miles an hour.

Two Sailors Washed Ashore.

LONG BRANCH, N. J., Nov. 20.—The bodies of two men dressed in the garb of sailors were washed ashore last night. Fears are entertained that the bluff at Long Branch and the bulkheads will be damaged by the high tides.

A VASSAL OF PORTUGAL.

Submission of a Powerful Chief in the Nyassa Country—Other Foreign News.

LISBON, Nov. 20.—The latest news from Lake Nyassa is that the Sultan Macangire, a powerful chief, whose territory lies on the eastern shore of the lake, has become a vassal of Portugal. Ma, Serpa Pinto, while surveying the Nyassa district, was attacked by Makololo. After a sharp fight the natives were repulsed with a loss of seventy-two killed.

Advices have been received from the Guinea coast of Africa that the Goba war has ended in favor of the Portuguese. Eighteen Dembos chiefs have offered their submission to the governor of Angola.

Plans of the French Government.

PARIS, Nov. 20.—Premier Thard, in the chamber of deputies, has promised reforms of taxation. Clerical questions would be abandoned. While laboring to complete the military organization, the sole desire of the government was for honorable peace. A radical motion for immediate consideration of the question of constitutional revision was rejected 345 to 123.

Efforts to Save the West End of London.

LONDON, Nov. 20.—A religious society has been formed by certain enthusiasts whose aim is to convert the people of the west end of London to Christianity. Every house in that aristocratic quarter is being visited by members of the organization, and even the residence of the Prince of Wales has been invaded.

Revolt Expected in Madrid.

PARIS, Nov. 20.—Senor Castelar, the Spanish Republican statesman, has started for Madrid. His sudden and unexpected return to that city at this particular juncture is regarded with suspicion in political circles, and it is feared that a revolt may occur against the Spanish regime.

True Philanthropy.

LONDON, Nov. 20.—The celebrated brewing establishment of Guinness Sons has donated the sum of £200,000 for the purpose of erecting dwellings for the laboring poor of London, and £50,000 for a like purpose in Dublin.

Another Fool for Niagara.

LONDON, Nov. 20.—Lambert, the famous swimmer, left London yesterday on his way to cross the Atlantic for the purpose of attempting to swim the Niagara rapids for a large wager.

Cargo Damaged by Fire.

LIVERPOOL, Nov. 20.—The fire in the steamship Orkio yesterday caused considerable damages. Nearly her entire cargo was ruined by fire and water.

After the Aurora Watch Company.

CHICAGO, Nov. 20.—Mr. Dueber, of the Dueber Watch Case Manufacturing company, and Mr. Rest, of the Hampden watch factory, of Canton, O., are at the Palmer. They are carrying on negotiations for the purchase of the Aurora watch factory, which was recently closed up by the receiver.

Still Less Than Five Million.

NEW YORK, Nov. 20.—The New York, New Haven and Hartford railroad has subscribed \$50,000 for the world's fair. The fund now amounts to \$4,010,597.

Jeff. Davis Improving.

NEW ORLEANS, Nov. 20.—Mr. Jefferson Davis is almost free from fever, but is still very weak.

THE EVENING BULLETIN

DAILY, EXCEPT SUNDAY.

ROSSER & MCCARTHY,
Proprietors

WEDNESDAY, NOV. 20, 1889.

Out of the seventy-five U. S. Senators when R. B. Hayes was made President, sixty are now dead, and only eleven answer to the roll call.

The people of Ohio have settled Foraker's Presidential aspirations for 1892. The Senatorial aspirations of his political chum Mr. Halstead have also gone glimmering.

It is estimated that 120,000 Americans visited the Paris Exposition the past summer. The exposition, was a "gold mine" for Paris, as it attracted fully 6,500,000 people to that city.

The Albany Argus significantly remarks that "in every State the people in 1885, the first year of President Cleveland's term, came to the support of his administration. In every State, in 1889, the people have come to the polls to condemn President Harrison's administration."

Ex-Governor McCREARY is not a candidate for U. S. Senator to succeed Hon. J. C. S. Blackburn. He thinks Kentucky's junior Senator has earned the endorsement of a second term. And he's right. And the Ex-Governor has only to hide his time. He will be called up higher.

A PROMINENT Ohio Republican warned his party last summer not to nominate Foraker and predicted that he would be the worst slaughtered man who ever ran for office if he made the race. A glance over the returns shows that the fellow who made that prediction knew what he was talking about.

STATISTICS recently published go to show that the small factories of this country are more profitable than the larger ones. What is needed here in Maysville is small industries of a diversified character. Each of these, devoted to a separate line of business, would prove a support to all the others. Let's be up and doing as a city. It's never too late to do good.

THE most important Democratic recruits this year are the Elliots, Lows, Curtises and other educators and leaders of thought, says the Philadelphia Times. These men are tariff reformers. They come from the Republican ranks and are but pioneers of large numbers who will follow. Tariff reform—the cause of the masses against the classes—is gaining ground day by day.

GREEN B. RAUM, the new Commissioner of Pensions, isn't much of a civil service reformer—at least he was not in 1884. In that year he was Treasurer of a Republican committee organized to extort money from the Government clerks at Washington City. But what matters all this? President Harrison doesn't seem to have a very high regard for the law, notwithstanding his declarations to the contrary.

TALKING about gerrymanders, the Republicans are very much concerned about what the Buckeye Democrats will do as soon as the Ohio Legislature meets. It will be strange if our friends, the enemy, are not given "a dose of their own medicine." The assertion is made that "but for a gerrymander the Senators from Rhode Island, Connecticut and New York would be Democrats and we would have one Senator from Iowa."

Mrs. Goodloe's Chances.

The Washington correspondent of the Courier-Journal says it was settled that Mrs. Goodloe should be given the Collectorship of this district. The appointment will likely be made to-day or tomorrow. Judge Thomas declined to be an applicant after he learned what the President thought of the matter.

The Outrage in Montana.

[Chicago Globe.]

There will be no hesitation in the minds of candid men about arriving at the conclusion that a most infamous outrage has been committed by the Republican Returning Board in Montana. The votes of citizens have been suppressed, and by this process the scoundrels have counted in candidates who were rejected by the people, and given the Republicans a majority of the Legislature. No question at all exists about the facts of the case. It is an undisputed act of revolutionary political robbery. The men guilty of this Montana steal are public enemies, who have forfeited the right to live by violating the dearest rights of their fellow citizens. When the people of Montana recover their rights, as they soon will, they should pass an act of outlawry against every person involved in any way in the atrocity which thus disgraces the first election in the State.

Don't Worry.

[Exchange.]

It is not work that kills but worry. It is not the revolution that destroys the machinery, but friction. Work is for the soul, good for the body and good for the mind. If you want a good appetite don't worry. If you want to stand well with yourself and the world, and want things to go right in your home and your business, do not worry. If you want to size up 100 cents on the dollar, do not worry.

KENTUCKY'S PORTION.

The Amount of Internal Revenue Collections in this State the Past Year.

According to the late report of Commissioner Mason the internal revenue tax paid in this State during the past year was as follows: Second district, \$1,493,272; Fifth, \$8,866,882; Sixth, \$3,403,916; Seventh, \$2,019,001; Eighth, \$1,119,712; total, \$16,910,814. During the year there were fifty stills seized, and 240 persons arrested for violation of the internal revenue laws in the State.

The number of cigar and cigarette manufacturers in the State was 259, making 30,753,075 cigars during the year, and no cigarettes, and using 586,417 pounds of tobacco. The number of manufacturers of tobacco was 78, using 14,199,552 pounds of leaf tobacco, 50,948 pounds of scraps, 2,646,742 of licorice, and making 14,518,480 pounds of plug, 421,251 pounds of fine-cut and 1,197,035 pounds of smoking tobacco.

The whole number of persons paying special tax in the State was 15,319, of which 58 are rectifiers, 3,210 retail liquor dealers, 186 wholesale dealers, 211 cigar manufacturers, 10,187 dealers in manufactured tobacco, and 98 dealers in malt liquors.

The number of retail liquor dealers in the State has decreased in the past ten years, the number now being 3,210, against 3,801 ten years ago and 4,334 five years ago. The number of wholesale dealers now is 186 against 212 ten years ago and 225 five years ago. The number of malt liquor dealers is now 98 against 142 ten years ago and 181 five years ago. The number of distilleries in the State is 348, of which 299 are fruit distilleries and 49 grain distilleries. They use 4,400,186 bushels of corn, 933,528 bushels of rye and 651,580 bushels of malt. The fruit brandy made last year in the State was 158,106 gallons. Spirits rectified, 4,679,597 gallons. Spirits now in warehouse, 36,604,640 gallons, as against 31,338,706 in 1888, 39,609,736 in 1887, 34,079,071 in 1886, 29,558,919 in 1885, 35,351,017 in 1884.

The American Society of Civil Engineers, the Imperial astronomer of Russia, the astronomer royal of England, and men of science generally in Europe and America advocate doing away with the a. m. and p. m. system of denoting time and have the hours run from 1 to 24. The move doesn't gain much favor, however. An exchange says: "It requires much argument to satisfy many kinds that there is any benefit to be derived from going to church at 18:30, instead of 7 p. m., or to the theater at 20 o'clock, instead of 8 p. m."

GOODYEAR, COOK & DILLON's Minstrels include such distinguished burnt-cork artists as Charles Goodyear, A. Leach, John Dillon, Charles E. Schilling, George H. Edwards, Eddie Manning, Byron Leach, Thomas Dixon, G. W. Kerr and a score or more of other well-known lights in minstrelsy. At the opera house to-night.

THE DOVER DISTRICT.

What County Superintendent Galbraith Says of the Public School Down There.

The enrollment of the Dover school is as follows: Principal's room, (F. A. Savage), 33, attendance, 24; Miss Lottie Evans' room, 53, attendance, 31; Miss Nora Wayland's room, 36, attendance, 28.

The trustees, John D. Boyd, J. J. McMillen and August Miller, deserve great credit for the new school house, which is an excellent building with three rooms, well furnished and comfortable in all of their appointments. The new house is a brick structure, and one in which the town may take just pride. Indeed we have every reason to believe that the school will now do better work than it has heretofore.

The classes examined acquitted themselves well. I was especially pleased with the arithmetic class in Mr. Savage's room. I was also pleased to find that in his management of the U. S. history class he made use of outlines of the subject, rather than the questions of the book, thus securing a rational investigation full of interest and profit. Nor can I omit to mention his spelling class, and recommend that our other teachers follow his example in teaching (not only the sounds of the letters but the diacritical marks, which are required in the written spelling).

In Miss Evans' room we found the sand-box for the use of the Geography class in constructing relief maps, while Miss Wayland's classes, the primary, were moving on bravely with their writing, having their slates ruled and receiving careful instruction.

The written work and monthly reports are in use, and, in fact, the school presented an earnest, active and systematic line of work in all of its departments, such work as will tell for great good in the lives of the pupils.

Death of Patrick Bryan.

Mr. Patrick Bryan, of Mayslick, died very suddenly last night. Apoplexy is attributed as the cause of death. He was in better health the past few days than for several years.

The deceased was the father of Mrs. A. Honan and Mrs. Patrick Daly, of this city, and Mrs. John Lane, of Washington, and was an uncle of Lieutenant Governor J. W. Bryan. He was eighty-five years of age, and was a good man.

The remains will be buried in the cemetery at Washington to-morrow afternoon at 1 o'clock.

Railway News.

Mr. Kane has succeeded Mr. C. R. Thompson as one of the operators at the depot.

Davis Collins, who was statistical clerk in the Secretary of State's office at Columbus during General Robinson's administration, is now ticket agent for the C. & O. at Manchester.

One of the most most wonderful railways on the continent, if not in the world, is the nine-mile branch which connects the towns of Bedford and Bellevue, Mass. The distance is not so astonishing, except when the gauge of ten inches is considered. In the short distance traversed by the pigma it crosses eleven streams, with bridges from five to thirty-five feet in height. The rails weigh but two pounds to the yard, about the size of those used in the mines of Missouri and Illinois. The cars and engines are constructed so as to be very near the ground, insuring a greater safety. The cars are provided with single seats on each side of the aisle. The car itself weighs but four tons, the weight of an ordinary car being twenty-six tons. The engine, without the tender, weighs seven tons and runs with two passenger or freight cars at the rate of twenty miles an hour.—Exchange.

The Turf, Field and Farm.

Sun-burned potatoes are said to be poisonous, and a Jersey City grocer has been arrested for selling such.

There were at a recent flower show at Los Angeles, Cal., over 250 varieties of chrisanthemums on exhibition.

The English Consul in Russia cables that the wheat crop is 70 per cent. less than last year in Southern Russia.

The farmer who does not raise a bountiful supply of good fruit for family use is at a business in which he does not deserve success.

The Argentine Republic has 105,000,000 sheep. It has a large wool clip this year, the number of sheep being twenty-per cent. greater than two years ago, and the breeds much improved.

Mr. D. Sam White, of Woodland Farm, this county, has bought of Mr. J. W. Fitzgerald the black yearling filly, Almata, by Alcandre, 2:28; 1st dam the dam of Joe Rucker (trial with 60 days' work, 2:37, quarter in 37) by Miller's Joe Downing; 2nd dam the dam of J. Q., 2:17; by Skinner's Joe (pacer); 3rd dam by Herr's Copperbottom (pacer); 4th dam by Bertrand, thoroughbred. This filly is booked for 1890 to Norval, 2:17, by the great Electioneer (sire of Sunol, 2:10; and Palo Alto, 2:12). This cross will give seven producing dams to the foal, and it is the producing blood the breeders are after now. Mr. White has made a good selection.

ABSOLUTELY RELIABLE FOOTWEAR

In the way of Fine Shoes we show this season---the handsomest and best lines made, representing more styles and combinations than was ever before offered in Maysville. Special attention is called to our LADIES' WALKING SHOES, made by the Goodyear Welt process. Equal to hand-work in appearance and finish---superior for comfort and flexibility, perfectly smooth innersoles, without nails, tacks, or threads---and much lower in price. With soles just the proper thickness to prevent moisture or cold from penetrating---often obviating the necessity of rubbers in damp weather---still not stiff or clumsy, but easy to "break in." These come in all shapes and widths, and in qualities to suit the purse of all. In regard to Medium and Low-price Shoes, we have a most complete stock, ranging in price from \$1.10 for a Ladies' Genuine Dongola Kid Button, to \$1.25, \$1.35 and up. WE SELL SOLID GOODS ONLY, such that will prove satisfactory to the wearer. Our prices will be found the lowest right through, where quality is any consideration.

Last Call.

To-night, Goodyear, Cook & Dillon's Minstrels will appear at the opera house. This company was credited with giving the best minstrel show of last season, and this year they are stronger than ever. Their performance is said to be void of vulgarity. Those who wish to spend a pleasant evening and see a good show it is safe to say will not be disappointed in Goodyear, Cook & Dillon.

OUR NEIGHBORS.

ORANGEBURG.

Dr. Hord went to the burial of Miss Adda Hord at Mill Creek Sunday.

D. E. Bullock went to the Queen City Tuesday with a bunch of fat hogs.

Elder Morrison had a very small congregation to hear him propound the gospel Sunday morning.

There have been three parties around here buying turkeys the past week. One of the party is paying 5½ cents per pound.

The cards are out for the nuptials of H. Clay Davis, of Lewis County, and Miss Lena Roe, only daughter of W. H. Roe, of this place.

Our accommodating bus driver lost his little daughter one day last week. Mr. Kelley, you and your wife have our heartiest regards in your bereavement. We know how to sympathize with you.

MAYSICK.

Trade is very quiet in this place.

Miss Jennie Evans returned last Thursday from long a visit in Fleming.

Mrs. Elizabeth Anderson, of Dover, is visiting the family of Waller Small.

The first snow of the season fell last Monday. Large flakes but soon gone.

Go to J. A. Jackson's cheap store for blankets, comforts and heavy woollens.

C. L. Stanton, of Maysville, was at the Stonewall House for several days last week, insuring the boys.

For quiet and comfortable rooms, go to the Stonewall House. Captain Jackson will attend to your wants.

Waller Small, on the 14th inst., was eighty-seven years of age, and for a man of his years he is very sprightly.

Bud Berry and wife, of Missouri, have returned to this, their native county, and will either locate in Maysville or Lexington.

The cards are out for the marriage of Mr. R. P. Hopper and Miss Mary Belle Caldwell on the 27th inst., at the Presbyterian Church in this place, at 1 o'clock p. m.

Elder F. M. Tindler is still at Elizaville, conducting his meeting at the Christian Church. Up to last Saturday night fifteen had been added by confession and baptism.

Last Monday was the worst day of the season. Fine time to sell boots. J. A. Jackson still has plenty of them on hand, and he is selling them low down, for cash.

All Quiet in Brazil.

Several Dispatches From the New Republic.

THE CHANGE SUCCESSFUL.

Confidence Shown in the Stability of the New Government—The New President Sends a Cablegram to London—Queen Victoria Invites Dom Pedro to Visit Her.

New York, Nov. 20.—Charles R. Flint received two cablegrams from Brazil. One was from a merchant house in Para, and stated: "Exchange advanced from 27 1/2 pence; rubber advanced fifty reis. Brazil tranquil; revolution may cause trouble later on."

The other cable was from Rio, and confirmed the published reports about the departure of the imperial family and the proclamation of the republic; also, that the present government would carry out all the obligations of the imperial government, and that there was likely to be a peaceful solution of all difficulties.

Mr. Flint stated that the barometer by which the condition of affairs can be judged was the exchange, and the fact of the rate of exchange remaining one-half pence, which corresponded to 1 1/2 per cent., is significant in showing that in the minds of the bankers and merchants the stability of Brazilian finances was not likely to be disturbed by the change of government.

"The rate of exchange in Brazil," Mr. Flint said, "corresponds exactly to the fluctuations of the greenback currency in this country during the civil war."

The coffee exchange opened yesterday with no excitement. Futures were steady.

A cable from London announced that the market for Brazilian securities there was firm at slight advances.

Dispatches received at Washington.

WASHINGTON, Nov. 20.—Dispatches were received at the Brazilian legation here yesterday morning from Rio Janeiro, reporting everything quiet there and the peaceful progress of the revolution. Senor Valente, the Brazilian minister after reading these dispatches said that he placed no credence whatever in the European reports from Paris and Hamburg of rioting and fighting in Rio.

A Cablegram From the New President. LONDON, Nov. 20.—Senor Fonseca, provisional president of Brazil, cables to The Central News stating positively that Dom Pedro has departed for Lisbon. Senor Fonseca states that he and his colleagues intend to administer affairs until the country definitely chooses a permanent government.

Informing the Queen of the News.

LONDON, Nov. 20.—The Duke of Nemours, father of Count D'Eu, son-in-law of Dom Pedro, the exiled emperor of Brazil, has telegraphed to the queen at Balmoral that the emperor and his family embarked at Rio de Janeiro without being subjected to any disagreeable experiences.

The Queen Wants to See Dom Pedro.

LONDON, Nov. 20.—It is stated that the queen has forwarded to Dom Pedro an invitation to visit her at Windsor.

Henry George Will Get His Money.

TRENTON, N. J., Nov. 20.—The bequest of \$30,000 by Mr. Bennett, an eccentric farmer, for the dissemination of Henry George's "Progress and Poverty," which was annulled by Chancellor Bird on the ground that Mr. George's theory was contrary to existing law, was yesterday pronounced valid by the court of errors and appeal. Chief Justice Boasely declaring that Mr. George has made valuable contributions to the social and political economy, and that his books are not contrary to law, religion or morality. The chancellor's decision is reversed, and the money goes to Mr. George.

Indians in Politics.

CHAMBERLAIN, S. Dak., Nov. 20.—Now that it is settled that the Indians are to be enfranchised, the question naturally arises, what will they be—Democrats, Republicans, Prohibitionists or Greenbackers? Those most intimately acquainted with the Indian character state that this question cannot be answered at this time. The Indian will develop into a shrewd politician, and it will take considerable wire-pulling, backed by liberal quantities of beef and dog to capture his vote. One thing may be said with certainty, that the Prohibitionists need not count on securing a single Indian vote.

A Divided Church.

WILKESBARR, Pa., Nov. 20.—Bishop O'Hara visited Plymouth yesterday afternoon to adjust the church difficulty there between the Poles and Lithuanians. He has divided the parish according to nationality and decided that the Poles should pay the Lithuanians \$2,000 for their interest in the church edifice. The Poles decline to accede to this arrangement and say they will carry their grievance to the cardinal.

The Jury Disagrees.

MINNEAPOLIS, Minn., Nov. 20.—The jury in the Collier forgery trial came in at 5 p. m. and reported that they had failed to agree. They were then discharged. They stood four for conviction and eight for acquittal. A new trial is probable.

Overdue Steamer Arrives.

NEW YORK, Nov. 20.—The National line steamer Italy, from Liverpool, before reported as four days overdue, reached her dock here this morning. Her detention was caused by a succession of westerly gales.

Died of Cancer.

NEW HAVEN, Conn., Nov. 20.—William W. Converse, aged 55 years, president of the Winchester Repeating Arms company, died last night of cancer of the throat.

LABOR TROUBLES.

Unsuccessful Strike of the Brooklyn Street Car Men.

NEW YORK, Nov. 20.—An abortive street car strike was undertaken in Brooklyn yesterday upon the lines controlled by the Atlantic avenue railroad company, ten in all. On Saturday President Richardson discharged eight men who had been in the employ of the company as drivers and conductors.

They sought an interview with him on Monday morning, and they were told by President Richardson that the reason for their discharge was that it was not for the interests of the company to keep them any longer. On Monday evening the men from the various lines decided to strike. Shortly after 5 a. m. yesterday the running of cars was stopped.

President Richardson early learned of the situation, and was on hand taking measures to meet it. By noon the only indication of trouble was the long headway of the cars, and the presence of policemen on the platforms. About half the men were at work, and as the day passed a still greater number resumed their places. About 11 a. m. a committee of the Knights of Labor called on Mr. Richardson in the capacity of the executive committee of the District Assembly 75.

Mr. Richardson refused to treat with them as representatives of the Knights of Labor. The committee then returned to the headquarters to deliberate upon further measures. Most of the conductors and drivers appeared to know nothing about the cause of the strike, and those who did not return to work stood about in the rain disconsolate, or sought refuge in the liquor shops. At nightfall cars were run upon regular schedule time.

Striking Indiana Miners.

BRAZIL, Ind., Nov. 20.—A mass meeting of the striking block miners of the central part of Clay county, was held at Church Hill mines, near Center Point, yesterday. It was unanimously agreed to resume work at the operators' offer, since all the bituminous and some block mines are running, and since forty per cent. of the strikers are at work at the reduction. This is the first break made in mass meeting. The affair is significant, though not many miners are represented. It represented the beginning of the end of the long strike among the block miners of Indiana.

The Knights of Labor.

ATLANTA, Ga., Nov. 20.—The morning session of the Knights of Labor was devoted to a discussion of the eight-hour question. Resolutions were adopted to the effect that the matter of short hours should be regulated by the demand. The effect of this is to leave it with the local assemblies to get as short hours as consistent with the different kinds of work. The general assembly favors a gradual reduction of time, but is opposed to any radical movement.

Serious Freight Wreck.

GUTHRIE, I. T., Nov. 20.—Report has reached here of a serious freight wreck in the Wichita canyon on the Denver, Fort Worth and Texas railway yesterday. A flange of one of the engine's driving wheels broke and the engine and five cars were thrown from the track. Engineer Wilmarth and Brake-man Wiers were instantly killed. Fireman Elam was dangerously injured.

Tom Murphy Knocked Out.

NEW YORK, Nov. 20.—Jack Carney and Tom Murphy, 120-pound pugilists, fought for a stake in the dining room of a hotel near Paterson, N. J., yesterday morning. Carney knocked Murphy out of time in the fourth round.

Death of a City Editor.

BOSTON, Nov. 20.—Charles H. Montague, city editor of The Boston Globe, died last night of typhoid fever, after an illness of four days.

Weather Indications.

Rain; clearing in southern portion; stationary temperature; westerly winds.

LOUISIANA STATE LOTTERY COMPANY.

Incorporated by the Legislature for educational and charitable purposes, and its franchise made a part of the present State constitution, in 1878, by an overwhelming popular vote.

Its Grand extraordinary Drawings take place semi-annually, (June and December), and its Grand Single Number Drawings take place in each of the other ten months of the year, and are all drawn in public, at the Academy of Music, New Orleans, La.

We do hereby certify that we supervise the arrangements for all the Monthly and Semi-Annual Drawings of the Louisiana State Lottery Company, and in person manage and control the Drawings themselves, and that the same are conducted with honesty, fairness, and a good faith toward all parties, and we authorize the Company to use this certificate, with facsimiles of our signatures attached, in its advertisements.

AGENTS WANTED.

For Club Rates, or any further information desired, write legibly to the undersigned, clearly stating your residence, with State, County, Street and Number. More rapid return mail delivery will be assured by your enclosing an envelope bearing your full address.

IMPORTANT.—Address M. A. DAUPHIN, New Orleans, La., or M. A. DAUPHIN, Washington, D. C., by ordinary letter, containing money order issued by all Express companies, New York Exchange, Draft or postal note. Address registered letters containing currency to New Orleans National Bank, New Orleans, La.

REMEMBER, that the payment of Prizes is guaranteed by four National Banks of New Orleans, and the tickets are signed by the President of an institution, whose chartered rights are recognized in the highest courts; therefore beware of all imitations or anonymous schemes.

ONE DOLLAR is the price of the smallest part or fraction of a ticket issued by us in any drawing. Anything in our name offered for less than a dollar is a swindle.
